Annual Per Capital Disposal

Employees

Total Number of Employees: 688

Explain who was included in this number and how was this employee number calculated.

Human Resources Department is where I ascertained the employee numbers. I contacted the Maintenance Supervisors for Employee numbers in the outlying areas. Caltrans Dist. 2 "employees" are full time normal 40 hour reporting workweek. Caltrans also employs permanent intermittent employees up to 1500 hours per year, retired annuitants up to 960 hours per year, student assistants on a limited term part time basis.

Non-Employee Population

Total number of non-employee population: 1

Population Type: Visitors

How was this population number determined?

Dist 2 "visitor" numbers are calculated with visitor sign in logs at both buildings. The rest area numbers are calculated with mechanic vehicle/axle counters and averages, and compiled by the Division of Traffic Operations. At times rest areas are closed for portions of the year being updated/renovated. Note: These traffic counters have no way of determining how many people are in each vehicle.

Disposal

Total amount disposed: 5,842.36 tons

Total transformation: 0.00

How was this disposal number determined?

Amounts of materials disposed were determined by a variety of methods. For materials, which were disposed of, the primary source for documents was to extrapolate by determining the approximate average weight of the material in the weights of the C&D debris the construction contractor supplied Caltrans with the information. Weight conversion charts from the CIWMB were used to convert volumes to tons. Annual Results.

This report summary displays the report information as submitted by the agency. To see the final report after any corrections made during the CalRecycle staff review please see <http://www.calrecycle.ca.gov/StateAgency/Reporting/>

Cafe' has been closed. & rendering is no longer picked up with a local rendering service.

Material Exchange

Nonprofit/school donations
Internal property reutilizations
State surplus (accepted by DGS)
Employee supplies exchange

We donate old computers, monitors, copies, fax machines, etc. to Nonprofits, Computers for Classrooms. We set up employee supplies exchange in common area of the D.O. and Leased Facility. Desk, workstations, Chairs are all reused by Maintenance Staff.

Waste Prevention/Re-use

Bulletin boards
Retreaded/Recapped tires
Reusable boxes
Reusable pallets
Electronic document storage
Intranet
Reuse of office furniture, equipment & supplies
Reuse of packing materials
Double-sided copies
Email vs. paper memos
Electric air hand-dryers
Remanufactured equipment
Rags made from waste cloth or reusable rags

This report summary displays the report information as submitted by the agency. To see the final report after any corrections made during the CalRecycle staff review please see <http://www.calrecycle.ca.gov/StateAgency/Reporting/>

Page 15 of 43

Warehouse pallets are reused, travel back and forth between warehouse and Maintenance units on a regular basis. Electronic document storage is used for quick research and reference to projects and historical files. Intranet is a source of information to be viewed by departmental employees only. Re-use of office furniture, equipment & supplies is a common practice at Caltrans until items become obsolete. Packing materials, boxes are re-used by our mailroom and warehouse. Double-sided copies are used when practical for less paper consumption. Memos are mailed out to employees rather than sent out by paper for more efficiency. Electric air hand-dryers are provided at our rest areas for less water waste. Remanufactured equipment is purchased for cost savings. Rags are picked up by a vendor cleaning service and are reused.

Green Procurement

Recycled Content Product (RCP) procurement policy
RCP/EPP and/or SABRC requirements language included in procurement contracts for products/materials

Training and Education

Dedicated Recycling Staff (Existing or implemented by July 1, 2018)*
Signage (signs, posters, labels for recycling bins. Existing or implemented by July 1, 2018)*
Employee training (Existing or implemented by July 1, 2018)*
Adequate number and condition of receptacles (Existing or implemented by July 1, 2018.)*
Web page (intranet or internet)
Brochures, flyers, newsletters, publications, newspaper articles/ads
Office recycling guide, fact sheets

We already have a dedicated Recycling Coordinator. Signage (signs, posters, including labels for recycling bins) Informational emails including do's and don'ts for workplace recycling activities. Curbside recycle guide books distributed. A new webpage <http://www.calrecycle.ca.gov/> is being added to our intranet website for all staff access, this will help better inform our suppliers, customers and community on our efforts to reuse, recycle, compost, and buy recycled products.

There are adequate recycle containers staged in common areas throughout the building provided by Waste Management for curbside pickup. According to Waste Management Supervisor, Redding being such a rural area organic food waste and food soiled paper currently goes straight into the landfill.
